**Letter from the Primary & Secondary Academic Supervisor. Edition 1/2017 June 30<sup>th</sup>, 2017**

**Regarding : Letter from the Primary & Secondary Academic Supervisor. Edition 1/2017**

**Dear Primary and Secondary Parents,**

**Welcome to the 2017-2018 school year! I hope that you and your family had a relaxing summer holiday. My name is Mr. Darius Konotopetz and I am the International Department Primary and Secondary Academic Supervisor at Lertlah School Kanchanapisek Road. I would like to communicate with you often, so I will be sending a newsletter to you each term.**

**The Lertlah School philosophy states that “Lertlah School is dedicated to our students”** development of moral and ethical values and in academics; with compassion, understanding, and integrated cooperation between teachers, parents, and students. To ensure that your child achieves success in education it is very important that the teacher, child, the school and you as the parent work together. In this partnership communication and diligent work are essential. It is also important that your child gets adequate physical activity (60 minutes per day), eats healthy food and gets enough sleep.

The international teachers at our school come with a wealth of knowledge and progressive teaching methods that will allow them to support your child to achieve academic success. Lertlah School teachers will provide your child with many unique learning experiences throughout the school year including:

- 1. Interactive and Hands-on Learning** : These types of learning activities provide students with opportunities to familiarize themselves with the learning process. It also allows them to be active participants in their own learning, resulting in increased self-confidence.
- 2. Emphasis on Speaking English** : Students will be encouraged to speak only English in class to help them gain confidence using the language.
- 3. Using Textbooks in Teaching** : It takes several years to create, edit and publish textbooks. As a result, some contents in the books may not be up-to-date after they are published. Therefore, the teachers will use new and current knowledge and innovative teaching practices rather than only using the textbooks. Teachers will use them wisely and productively as supplementary resources to support your child’s learning, as well as to meet the curriculum objectives.

**Here are some points to further ensure the success of your child.**

1. Students should be on time for school. It is very important for the students to receive all the information. Late students may get behind in learning if they miss too much information.
2. Teachers have classroom rules that all students must follow. These rules are fair and easy to understand and they make the classroom a safe place to learn. There are consequences for students who choose not to follow the rules. You may be called if the problem is serious or is not resolved.
3. Students should complete classwork and homework on time and to the best of their ability. If they don’t understand, they may get extra help at lunch with the teachers.
4. Students should be respectful of other students, their teachers and school property. We would like students to show a sense of pride in being part of the Lertlah School community. Students’ attitude will affect their learning, success and participation in school. Please help encourage a good attitude at home as well.

This term, students will participate in the Spelling Bee. Please encourage your child to do his/her best.

It is my hope that this school year will be full of success for all students. If you have any questions, comments or concerns about your child’s education, please make an appointment to speak to me at the front office

**Sincerely,**

**Darius Konotopetz**
